- NOTES: (1) 2016 Income levels have decreased based on HUD's calculations for the Portland-Vancouver-Hillsboro. OR-WA MSA. The income schedule above is to be used for projects that DO NOT qualify for the HERA Special tables as published by HUD 3/28/2016. If you have multiple funding sources, you must use incomes and rents applicable to the most restrictive program requirements. Projects that have LIHTC and/or tax-exempt bond funding should refer to the applicable tables for your county found at: http://www.oregon.gov/ohcs/pages/research-income-rent-limits.aspx
 - (2) Because HUD no longer enforces the Hold Harmless Policy from past years. HUD determined that allowing income limits to rise or fall precipitously was not in the best interests of managing its programs. Therefore, in 2016 the maximum change that can be experienced in any area in one year is the greater of 5 percent or twice the change in national median family income from last year to this year. Portland income limits for extremely-low and very-low income were adjusted and capped. Please see HUD's Office of Policy Development & Research income limit guidelines for further explanation: http://www.huduser.org/portal/datasets/il/il15/index.html
 - (3) Other 2016 MFI levels are based on the 4-Person Income Limit of \$73,300. The 1-Person family Income Limit is 70% of the 4-Person Income Limit, the 2-Person family Income Limit is 80% of the 4-Person Income Limit, the 3-Person family Income Limit is 90% of the 4-Person Income Limit. Each family size larger than four (4) is calculated by an 8% increase per HH member to the 4-Person Income Limit. (i.e., 5-Person = 108%; 6-Person - 116%; 7-Person = 124%; 8-Person = 132%, and so on.

5	\$2,425			
6	\$2,789			

¹ Portland-Vancouver-Hillsboro, OR-WA MSA = Clackamas, Clark, Columbia, Multnomah, Skamania, Washington & Yamhill Counties

² Rents can be set below the median family income % threshold. For instance a residential unit may be restricted to households at or below 50% MFI, but have one-bedroom rents (and utilities expenses) that are below \$689/month

³ The FMRs for unit sizes larger than four bedrooms are calculated by adding 15 percent to the four bedroom FMR, for each extra bedroom. For example, the FMR for a five bedroom unit is 1.15 times the four bedroom FMR, and the FMR for a six bedroom unit is 1.30 times the four bedroom FMR. FMRs for singleroom occupancy units are 0.75 times the zero bedroom (efficiency) FMR.
